

Residents:

As result of the recent earthquake you may have additional items for disposal. CR&R has the following options for your immediate disposal needs:

- For the next few weeks you may place broken or damaged household items in any of your current waste, recycling, or green waste carts. We request you call our Customer Service in advance to inform them. They will notify our drivers so your account is serviced with a waste and not a recycling truck.
- Each resident is entitled to 3 bulk items pick ups annually. Please feel free to call and order this free service.
- If you have larger damaged items that do not fit within your residential carts you may consider the use of a temporary dumpster. Please call our office for rates and delivery.

Commercial Businesses:

- You may increase your existing service temporarily. This is the most cost effective way to disposal of all overages.
- You may order additional pick ups.
- Temporary roll off containers are available for multi-tenant use.
- Temporary Portable Storage units are also available to securely house items.

For additional information or assistance, please call CR&R Customer Service at 760.482.5656 or 877.482.5656. We are here to assist you during this difficult time.
